Using iPads to Practice, Show & Tell

During this presentation, we want to share apps and programs (many lesser known) to do with 1 device in the class or up to a classroom full of devices. These resources will have students practice what they know, show what they know and tell (or test) what they know. We have found these methods thoroughly engages our students.

Apps & Programs	Practice What you Know	Show What you Know	Tell/Test What you Know
<u>Quizlet</u> – content area flashcard activities; search or create	X		
<u>Kahoot</u> – game based review	X	X	X
● <u>Quizizz</u> – game based review	X	X	X
● QR Codes	X		X
